

Concrete Hoppers

Concrete Hoppers - The self-dumping hopper attachment could automatically start to both dump and release when the bumper release contacts the side of a dumpster. After dumping is done, the hopper could go back to original upright and locked position. This piece of machinery is likewise existing together with a cable which enables operation from the seat of the forklift to be able to have the choice of manually unloading the hopper. There is a locking chain provided in order to lock the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish to be able to maintain durability.
