

Clark Forklift Part

Clark Forklift Part - At this time, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive makes of forklifts, with components covering more than 120,000 specific items for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your components needs provided by Clark Totalift.

Clark has a exceptional Parts Distribution team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a standard feature on every lift truck.

Clark's relentless effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the particularly economical and beneficial system of "Lean Production" for its assembly facilities and use of resources. This system was established to acknowledge the most successful method of production facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to improve the proficiency and brilliance of their products while minimizing expenses. The contemporary value engineering agenda combines progressive product growth and delivers superior client support and service within the industry.
